DEDICATION

The Selectmen of the Town of Sunapee take great pleasure in dedicating this Annual Report to:

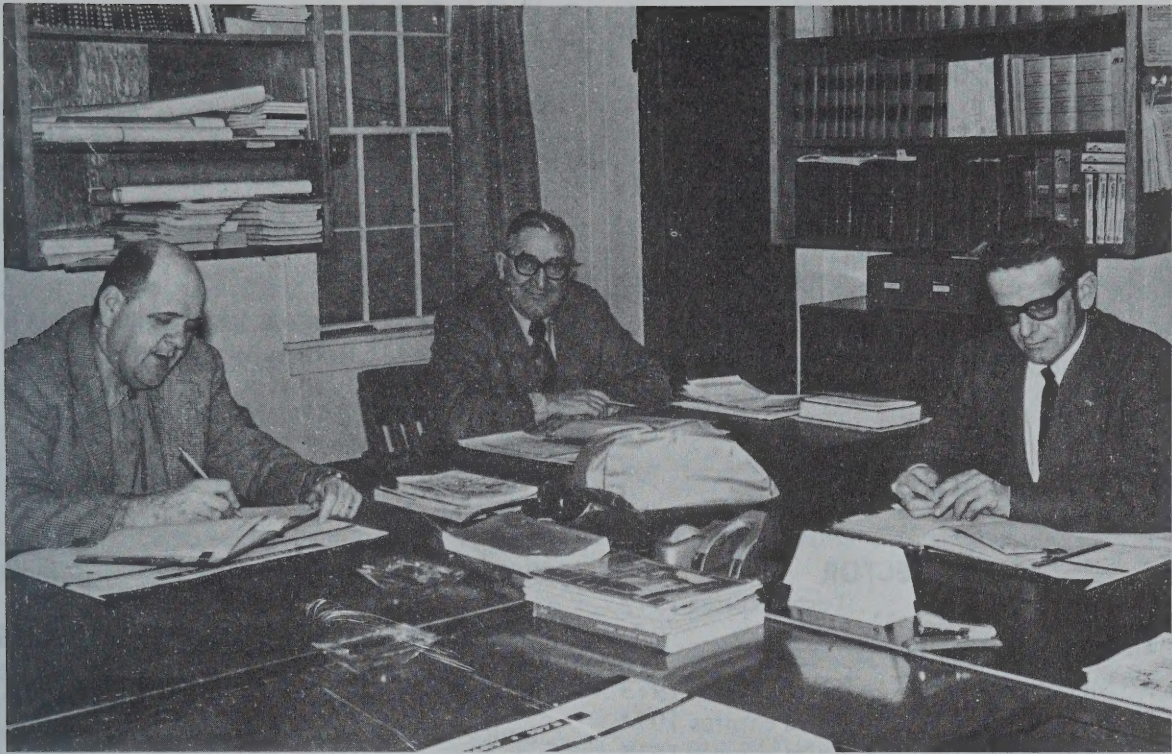

GEORGE R. MERRIFIELD

Mr. Merrifield has served the Town of Sunapee in a number of capacities for almost thirty years. Last year, he resigned as the superintendent of the Sunapee Water Department, having been appointed to that position in 1950. He served since then as a consultant for the newly appointed superintendent Terry Odell.

Mr. Merrifield served the Town of Sunapee as the Representative to the General Court from 1957 to 1970. He has been a member of the Sunapee Board of Water Commissioners for 27 years and on the Board of Cemetery Commissioners for 29 years, and has been the superintendent of the cemeteries for a number of years. He served as a member of the Trustees of the Trust Funds for one year, and has been in charge of the collection of garbage. He is a member of the Memorial Committee.

Mr. Merrifield is still serving in several capacities and we wish him a long and happy retirement from the job as water superintendent, while being grateful for his work in his other jobs.

MEET YOUR SELECTMEN

John W. Sargent, George I. Wiggins and Ernest L. Cutting, II

TOWN OF SUNAPEE

1972 was a very busy and eventful year for your selectmen. We finalized plans and contract for the Water Department improvements in July and construction has proceeded very satisfactorily with R. H. White Construction Co. of Auburn, Mass. the contractor.

The sewer contracts were signed in September and construction started in October. Considerable progress has been made and a lot of inconvenience to the general public has occurred. But these are worthwhile, as one year from now all construction will be complete. Ropes and Gray are now preparing the sewer bonds. Mr. Metcalf of the Water Supply and Pollution Control Commission, held these up until January of this year.

Our planning board has been extremely busy on sub-divisions and sub-division controls. This past year every 50 acre tract is being considered by out of state people for subdivision. All this development with a minimum of controls, will result in a very horrendous problem for this town and a tremendous increase in the tax rate, as the people in these developments demand services. All this growth with few controls is, in our opinion, the largest problem facing the town today.

We wish to thank our planning board for the long hours that they have worked without pay and the interest they have for our town. We have inserted an article to join the regional planning commission and hope you, the people, will vote in favor of this article because the regional planning commission will be able to give a great deal of help to our planning board.

The Sewer Commission has been very active in exploring the ways and means of paying for our sewer system and have agreed to see if a merger with the water department would be feasible. The feeling we have, after having a joint meeting with the Sewer and Water Commissioners, is that it would be less costly to have one superintendent and some employees than to have two separate divisions.

We are faced with the need for a new school building and with the unprecedented growth of our town.

We are continuing to explore a full-time assessor for the three towns of Sunapee, New London, and Newbury.

The Board of Selectmen wish to thank all Departments for their excellent cooperation in the past year and their efforts to hold costs to a minimum. We would also like to thank all citizens for their understanding of our problems and our efforts to solve them.

INFORMATION BOOTH

Our ten week season at Sunapee's Information Booth was a bit discouraging for a time as our tourist traffic was down about 15% due to weather conditions but our season was rewarding in another sense as many people came back to thank us for our help in finding what they were looking for in motel and inn accommodations, cottage rentals — boat rides — restaurants or camp sites. We had 3,098 cars containing 9,219 passengers with 39 states and 4 Canadian provinces represented. We are not funded by state money in any way, only by money from taxpayers of Sunapee, and I believe it is a good investment.

ABBOTT LIBRARY REPORT

for year ending December 31, 1972

The Library is open 19 hours each week; from 1-8 on Mondays and Wednesdays and from 1-6 on Fridays.

Activities in the Library this year have included film programs on alternate Fridays during the Winter months for children pre-school through 6th grade, story-time on Wednesday afternoons during the months of July and August, regular class visits to the Library during the school year of grades 2, 3 and 4. There was a Halloween party for children pre-school through grade 6.

In addition to loaning books the Library offers other services. There is a telephone for requesting information, reference material or for renewals; a pattern exchange for people who sew; a swap-shelf for paperbacks; a copy machine for making duplicates of anything needed and talking books and talking book machines for anyone who for any reason cannot use printed material. Books are delivered to older residents and to anyone who is unable to get to the Library, on request.

The Friends of the Library sponsored an outdoor theatre program by The Little Red Wagon from Durham on June 28th and also the annual Art Festival at the Harbor on July 3rd.

New stacks and work space were installed on the main floor this year.

TRUSTEES OF TRUST FUND

Eileen G. Stiles, Treasurer; William P. Doherty
Other member not present, Alice B. Reed

A mending workshop for the Southwest District Libraries was held in the Library in August. The Sunapee Women's Club has board meetings in the meeting room in the Library bi-monthly.

I attended an outreach workshop in Durham the week of June 11th and also a course in Library Science in July — both on scholarships.

The number of residents using the Library increases each year as the collection is constantly being added to and improved.

I wish to express my appreciation to the Library Trustees for all the assistance they have given me.

BEN MERE COMMISSION REPORT

During the past year the Ben Mere Area Commission worked to improve the appearance and use of the area by beginning construction of a parking area on the east side of the property, the erection of small signs to protect the grass area on the front, and the filling and grading of the middle level section. In this the Commission was generously assisted by officials of the town and by individuals who devoted time, effort, and materials.

A carnival was held during July, chairmaned by Mrs. Arthur A. Osborne. Several organizations of the town participated and kindly donated part of their proceeds to the fund. Over \$300. net was realized which was applied to defray the current mortgage. It is expected that during 1973 the mortgage will be completely paid up.

The Commission recommends continuing improvement of the property by landscaping and completion of the parking area on the east side.

REPORT of the FOREST FIRE WARDEN and DISTRICT CHIEF

In New Hampshire, forest fire control is a cooperative State-town program. The Town Forest Fire Warden, appointed by the Director, Division of Resources Development upon recommendation of the Selectmen and the State's District Forest Fire Chief is responsible for fire suppression and other related duties. The State shares equally with the town in the cost of most forest fires, except illegal and careless fires, which are charged to the responsible party. The State further provides fire detection services, prevention programs, fire training for town wardens and crews, and back up equipment for fire suppression.

By authority of the State, the Town Forest Fire Warden controls all outside burning in his town except backyard cooking fires. Any person wishing to kindle a fire when the ground is not covered with snow must obtain a fire permit, free of cost, from the Town Forest Fire Warden. No permits will be issued for fires between 9:00 A.M. and 5:00 P.M. unless it is raining, except for commercial purposes.

Please be careful when using fire, remember it can be an extremely useful tool when under control but once allowed to run wild it can become a disastrous and devastating force. Only you can prevent a forest fire.

Number of fires reported and acres burned — 1972 season:

STATE — 410 fires — 361 acres burned

DISTRICT — 33 fires — 10-2/3 acres

TOWN — 3 fires — .2 acres

ENGINEERS REPORT

Sunapee Fire Department

From December 1, 1971 to November 30, 1972 the Fire Department answered a total of 26 alarms.

In November 1972 we received delivery of the new Engine authorized at the March 1972 town meeting. This has allowed us to replace the 1948 truck at the Georges Mills station with the 1953 Class A pumper that was located at the Sunapee station.

In September the New Hampshire Board of Underwriters inspected the facilities of the water and fire departments for the first time in over thirty years. There were 26 recommendations made to the departments and ten of these were classed as highly important. Of these ten items five applied directly to the Fire Department. We are in the process of correcting and changing to meet some of their specifications.

On Saturday, July 14 the Sunapee Fire Department plans to celebrate its Centennial. We are asking for a special appropriation of \$500.00 to aid us if it becomes financially necessary. The tentative program is as follows:

1:00 P.M. — Parade

5:00-7:00 P.M. — Bar-B-Que

7:30-9:00 P.M. — Band Concert

9:00 P.M. — Fireworks

10:00-1:00 — Firemans Ball

SEWER COMMISSION REPORT

During the past year the Commissioners worked in conjunction with the Selectmen in planning and bringing about the financing, contract arrangement, and construction of the sewer. This phase of the effort is under the authority of the Selectmen.

Several meetings of the Commission have been held to study the matters of amortization payment, user fees, sewer ordinance, and employment of permanent personnel.

It is expected that a series of meetings will be held that are open to the public so that all phases of the development can be brought about with full understanding and cooperation of the people of Sunapee.

The Dental Clinic was as usual sponsored by the Sunapee Woman's Club and the Barlett Fund with matching funds from the State. Thirty hours of dental work were allocated this year and administered by Dr. Chris Armen on elementary school children.

The Immunization Clinics held in Newport are still available to Sunapee children and are free of charge.

New requirements regarding immunizations and tuberculin testing for children before entry into school are now in effect. Information concerning changes may be obtained from me.

The Salvation Army, the Sunapee Lion's Club, and the Brtlett Fund have assisted financially when needed with eye examinations, glasses, dental work, food, and clothing for families during times of difficulty.

I wish to thank Dr. John Walker, Dr. Jennifer Lewis, Dr. Chris Armen, town officials, school per-

sonnel, organizations, and members of the Sunapee Nursing Association for their interest and cooperation in the health program.

CONSERVATION COMMISSION REPORT

During 1972 your commission was involved in several conservation related activities and is pleased to report the following.

In cooperation with the U.S.D.A. and the county forester, fifteen additional acres of forest were thinned and weeded in the Ledge Pond lot. The improvement work was supervised by Stanley Rastallis of the New England Forestry Foundation at a cost to the town of \$125.00 with the Federal Government paying the balance.

A twilight tour of the lot was made by the commission to see first hand how the work was done and to better understand how the practices would hasten the day when the town could selectively harvest a crop of high quality timber.

Deeds to town owned property have been examined, restrictions as to use noted, in preparation for the day when an inventory of the conservation needs of each lot may be developed.

A steel file has been purchased and placed in the town office. It will serve as storage for commission records and provide space for a modest library of conservation subjects of interest to Sunapee citizens, teachers and their students. Likewise the material and records may prove a useful reference to selectmen and the planning board.

A Deed of Dedication between the Commission and Richard H. Webb has been developed. In effect, this guarantees the grantor and his heirs the right to grow and harvest timber on some three hundred and sixty acres of land and at the same time furnish citizens of Sunapee and their guests, among many things, an area for hiking, nature trails, snow mobilizing, cross country ski trails, archery, simple camping and hunting in season. The Grantor will continue to own the land and it will be taxed as forest land.

Temporarily the development of nature trails in Dewey Woods has been suspended, pending the decay of brush left from previous woodland improvement practices. As soon as practical the commission will re-examine the area for both its educational and scenic potentials.

The Commission has entered into an agreement with the Sullivan County Soil Conservation District to have a detailed soils map prepared of Sunapee. The data will be available in 1974 and will provide an invaluable tool for all branches of town government concerned with conservation, town planning, pollution control, sanitary land fill and even road construction.

The cooperation of town officials has been appreciated.

Respectfully submitted,
STANLEY COLBY, *Chairman*

A PAGE FROM THE PAST

The following are excerpts from past Town Reports

Water Commissioners Report

for year ending February 15, 1905

Last year we congratulated you that we had been very fortunate in not having any serious freeze up or breaks but before our report had reached you we had the worst break we had ever experienced. This happened on Central Street and came from a crack in the pipe and the ground being frozen so deep it made it expensive to repair.

This year we have had quite a number of small leaks in the Main and Suction Pipe and in the Reservoir. We find that the reservoir will need a good coat of cement on the bottom before it will be right and when that is done it should be right for a number of years.

We have just had a bad break at the Lower Village and that is repaired, but we have been unable to open the lower end of the main pipe and it looks now as though we should have to wait for Spring weather to open that.

Report of Board of Health

February 15, 1905

The law requires that the following contagious diseases shall be reported to the Board of Health: Cholera, small pox, typhus fever, yellow fever, diphtheria, membranous croup, scarlet fever, typhoid fever and measles. From this list we are pleased to report but three cases of measles during the past year.

Complaints from the public against various matters which were considered by the complainant to be either injurious to health, or a nuisance, have been above the average and have been passed upon with our best judgment.

We are glad to note the improvement made by those living near the outlet of the lake, in caring for their sewage, and thrust that those about P. O. Square may join hands and do likewise and not oblige the Board of Health to take action against some things which are a violation of the health laws.

Respectfully submitted,
ALBERT D. FELCH,

IN MEMORIAM

The Town of Sunapee mourns the loss of Harvey A. Fitts who passed away on the eleventh day of February at his winter home in Sarasota, Florida.

A native of Framingham, Massachusetts, and a summer resident of Burkehaven for many years, Mr. Fitts made many anonymous contributions to the town in the form of pumps, compressors and other machine equipment for which the Town of Sunapee wishes to express its gratitude.

The Town wishes to express its sympathy to his wife, Frances Fitts, his sons and his family in their loss which is also a great loss to this Town.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Sunapee:

ENROLLMENT

The enrollment for the school year 1972-73 is 415 — divided as follows:

Elementary	(Grades 1-6) — 208
Junior High	(Grades 7-8) — 67
Senior High	(Grades 9-12) — 140

PROGRAM and SPACE

We are blocked into the existing program by the severe space limitations. We are unable to comply with the New Hampshire Minimum Standards for Elementary Schools for class size in view of our present number of elementary stations which include three portable units. A good teaching situation exists in Grade 1 where we are operating two sections. All other elementary sections are at or over the State Maximum size:

Grade 2 — 32 students (7 over maximum)
Grades 1 & 2 — 25 students (maximum)
Grade 3 — 30 students (at maximum)
Grade 4 — 36 students (6 over maximum)
Grade 5 — 34 students (4 over maximum)
Grade 6 — 40 students (10 over maximum)
(Grades 3 to 6 — 30 students maximum)

Our space problems will continue through 1973-74 as the target date for new facilities has been set for September 1974 and the 1974-75 school year.

The understanding attitude of students, staff, and parents has been commendable.

BUILDING PLANS

The year has been filled with the necessary preliminary study and planning that must go into a major building project. Sunapee is fortunate to have a concerned citizenry that is willing and able to give time and "know how" toward a solution to its school problem. Some specific steps are set down in the "Report of the School Board and the Building Review Committee."

Although it is necessary to include an Article on the bond issue in the Annual School Warrant in March, final plans and prices will not be available for a vote at that time. Consequently, it is the School Board's intent to postpone action on the bond issue until mid-May when definitive cost figures will be available.

CONCLUSION

The spring of 1973 will bring a vote on a new school plant. Such a major decision requires adequate understanding by the citizens on the needs and the proposed means of meeting these needs. You have already taken two important steps: (1) in 1971

the purchase of the Long View Terrace site, (2) in 1972 the appropriation of funds to provide architect's final working drawings for a high school. A favorable vote on the bond issue in May should provide the final step toward making new school facilities available for the students in Sunapee in September of 1974.

Respectfully submitted,
GORDON, B. FLINT
Superintendent of Schools

REPORT OF THE PRINCIPAL

STEPHEN SANDERS

The following students are members of the Honor Society for the school year 1972-73: Sandra Fortier, Marilyn Morse, Mary Pollard, Duane Sprague, Lynne Tuohy, Jayson Colby, Chris Gallup, Lois Nemcovich, Kenneth Sprague, Dan Fitzpatrick, Dana Hargbol, Kimberly Libsch, Leslie Powers and Van Webb.

I believe the most interesting and practical development in the school's program for the past several years has been the development of the Work Study Program under the direction of Mr. Richard Leone. Approximately thirty seniors are involved this year. The intent of the program is to get the students out of the classroom and into an actual working situation. For two periods a week the participants meet as a class where working problems are discussed. The work program uses the afternoon periods and Seniors who are enrolled take all their regular classes in the morning. In my opinion the program is an excellent addition to our courses of study.

Respectfully,
DAVID W. SHERBURNE
Principal

SUNAPEE SCHOOL DISTRICT

Report of the School Board and the Building Review Committee

At the Annual School District meeting on March 6, 1972 the Sunapee voters appropriated a sum not to exceed \$40,000 for working drawings of a new high school, grades 7-12, to be constructed on the Longview Terrace property which is owned by the School District.

This action was taken as a result of the work and planning completed by the Sunapee School Board and Building Committee. The report of this committee is printed in the Annual Report of 1971 on pages 54 and 55.

Shortly after the 1972 Annual Meeting the School Board employed the firm of David D. Douglas Associates of Derry, N.H. as architects of the new school.

The School Board felt it would be beneficial to have the advice and assistance of a Building Review Committee made up of a cross section of Sunapee citizens as they proceeded with the plans for the new building. The names of the members of this committee appear at the end of this report.

During the past year the School Board and the Building Review Committee met many times with the architect discussing preliminary building plans. Several sets of preliminary plans were reviewed by the committee. Many suggestions were given to the architect as the school plan was developed.

After a meeting with heating engineers it was decided to install oil heat in the new building and general approval was given to a sprinkler system.

During Open House at Sunapee Central School in November an open meeting was held on the proposed building. Many citizens were in attendance to hear the presentation by Mr. Douglas, the architect. A general discussion was held and preliminary plans were viewed by the public.

During the later part of October the preliminary plans were submitted to the State Department of Education for their approval. Their preliminary approval was received on November 1, 1972 along with several suggestions which were incorporated into the plans.

It should be noted that the architect, school administrators and teachers had met several times with consultants from the State Department of Education discussing both the school program and the school plans.

In November final approval of the plans was given by the School Board and the Building Re-

view Committee. The architect was given permission to proceed with the working drawings and specifications for the new school.

Once completed the final drawings and building specifications must be approved by the following agencies before they can be put out to bid:

1. The School Board with the advice of the Building Review Committee.
2. The New Hampshire Department of Safety (State Fire Marshal's Office).
3. The New Hampshire Department of Education.

As January, 1973 approached it became evident to the architect and the School Board that there would not be sufficient time to complete the working drawings, obtain the necessary approval and conduct the bidding for the construction of the building prior to the 1973 Annual School meeting on Monday, March 5, 1973. For this reason the School Board will ask that the Annual Meeting on March 5, 1973 be recessed after the other business has been conducted, to May 16, 1973 for the purpose of voting on the bond issue.

The School Board plans to hold at least two public meetings on the proposed building prior to the recessed meeting in May. The purpose of these meetings will be to allow each citizen ample opportunity to view the plans and ask any questions regarding the plans and the proposed bond issue.

The School Board wishes to express their appreciation to the members of the Building Review Committee for their conscientious efforts during the planning stages of this project.

Sunapee School Board: Richard H. Webb, Chairman, Guy E. Alexander, Farrell Quinlan.
